

THE NEWS IN PERSPECTIVE

By PAUL PULITZER

MONEY POWER TIGHTENS ECONOMIC SQUEEZE ON U.S.

Let's quit kidding ourselves. Let's stop playing ostrich in the face of economic, moral, and spiritual bankruptcy. We, the people, of these United States of America, so trusting in our form of government and in our elected representatives, have been sold out to the highest bidder. Once upon a time the richest nation in the world, today we are busted out. Tomorrow, it will get worse. Tricky Dicky Nixon can go right on issuing executive orders. None will help, none digs into the crux of the emergency anyway. The economic fix is in. On the surface, it is made to appear as if his immediate aim is to allow the dollar to float in the international money market in order to effect a 12 to 15% devaluation. Underneath the presidential table, however, his move suggests a scheduled change in the world's monetary system as ordained by the money power. Secretly, these termites have been setting the machinery in motion, while publicly proclaiming through their lackeys that the present system is too cumbersome, too costly, and too time-consuming. It is reported by reliable sources that, already, a giant computer has been built in Brussels ready to issue numbers in lieu of currency. Those, who will get a number in exchange for their shirt, will live; those, who will not qualify for a number, will starve to death. It is the mark of the Beast prophesized in the biblical Apocalypse. Once these numbers are issued in lieu of currency, the whole world will be locked into a totalitarian, world super-government owned lock, stock, and barrel by the MONEY POWER. It won't be long now . . .

This nation, once upon a time the richest in the world, is in a state of bankruptcy. Its money is worthless, not worth the paper it is printed on. Its credit and credibility are a shambles. Mismanaged by hordes of eggheaded charlatans, the gold cupboard is bare, Fort Knox is a bad joke. With a stroke of his pen, Tricky Dicky Nixon has punctured the LBJ-fabricated myth of an "Affluent Society" and exposed a time-payment-plan monstrosity scrambling for bread in a deliberately manufactured war economy. The entire structure enjoys about a 90-day longevity should employment cease, or catastrophe strike. Yet, we are begged by the White House not to sell this country short!

A prominent lecturer, privy to the secrets of the money power after thirty years of research, once said that Tricky Dicky Nixon may be our last president. He also said Nixon was the man selected by the money power to drive this nation out of its cotton-picking mind, while stealthily leading it into bankruptcy. He also confirmed that once this slick trick is pulled off, Nixon's work will be done, there will be no more presidential elections and by then we will all be inmates of the global animal farm set up by the money power. Judging by the manner in which Tricky Dicky Nixon tackled the present man-made economic emergency, such a presumption is not preposterous. Instead of getting down to the nitty-gritty of the matter, he took off into the wild, blue yonder to seek bogeymen behind the clouds. He made his exercise in futility look like the exertions of a crusader astride a big, white charger ready to sally forth to do battle with the devil to save us all from economic strangulation. It is all a lot of bunk!

PROFIT AND LOSS STATEMENT

The Profit and Loss Statement of this nation reads loud and clear. It does not reflect a profitable operation. On the contrary, it reflects bad management. It also shows that somebody tapped the till so badly that we are hopelessly in the red. In fact, if this nation, once the richest in the world and the envy of mankind, wanted to apply for a loan to buy a wheelbarrow, under existing banking rules and regulations its application would be refused. All of this was planned. The kickoff, as well as the tip-off, was when, on top of giving all of our money to a privately-owned bank way back on Dec. 23, 1913, Washington adopted the lunatical Keynesian theory of economics which calls for spending more than you've got, or can earn, in order to become financially solvent. Of course, as we blew our wad, we had to borrow back our own money at interest. The more we had to borrow, and were actually forced to borrow, the more money the Federal Reserve Bank earned out of the blood, sweat and tears of the American taxpayer. Today the American people are in hock for the principal amount borrowed and for the interest thereon to the tune of about \$20-billion a year. As guarantors for the repayment of this astronomical loan of our own money, the yoke of income tax was slipped around the wage-earners' necks, while the IRS, allegedly a governmental agency, is, in reality, the collection agency for a privately-owned bank. This state of affairs is so horrendous it is hard to believe. Where we all stand is now an open book and very believable, indeed.

Sneaky banks abroad, owned by the money power to begin with, hold about \$52-billion in

Federal Reserve Notes, which we believe to be dollars. At the right time, the money power ordered these banks to demand gold from us in exchange for these worthless notes. Of course, the money power knew beforehand that we could not pay off, because we've only got about \$10-billion worth of gold left in Fort Knox. They also knew beforehand what Washington, in the person of Tricky Dicky Nixon, would do to counter this gambit. Sure enough, he did it and the money power cashed in around the world.

We are in the red for about \$2-billion in our balance-of-payments deficits, while, at the same time, pricing ourselves out of contention in foreign markets. Simultaneously, we are letting foreign goods exploit our own domestic markets, thereby adding to unemployment.

In addition, we are confronted with spiraling inflation caused by strike-spearheaded wage increases which, in turn, upped the cost of goods and services. This, too, has exacerbated the unemployment picture, while the troop withdrawals from Vietnam, after blowing about \$200-billion for nothing, is adding to this pinch. Moreover, domestic and foreign spending levels have NOT been cut back and it is not likely that they will.

But, this and much more, is not enough. On Dec. 23, 1913, while Congress was supposed to be in recess — and was — a gang of thieves got together and punched through a fraudulent act in flagrant violation of our Constitution. They turned over the management of our money to a privately-owned bank, the Federal Reserve Bank, whose Preferred Stockholders are still a state secret, whose books are not subject to audit, which pays no Income Tax on profits earned, and which, for all intents and purposes, actually operates in this country as a sovereign state. Since then, this monstrosity has stolen our gold hoard, driven us into impossible debt, and has milked us dry as a bone by the simple procedure of fostering upon us the deficit spending nonsense of a Fabian Socialist fag. (See Congressman Louis T. McFadden's Speeches on the Federal Reserve Corp., 1934).

The money power is the real owner of the Federal Reserve Bank, which is the weapon being wielded to bust us out in order to do away with our nation and to corral us all into a One World System!

And, in the face of all this, what does Mr. Nixon do?

Why, to be sure, he sits down and issues some executive orders!

TRICKY DICKY'S EXECUTIVE ORDERS

About a week before he sat down to sign his name on papers already drawn up for execution, Mr. Nixon told us that there was nothing to worry about and that wage-price freezes were out. Then, all of a sudden, it seems, things went from bad to worse. Faced with a fait accompli, which he knew was in the wind beforehand, he had to save face before the electorate, a trick he has now learned from Chop Stick Kissinger, who became an overnight expert in such things at the taxpayer's expense. To make it look good to the great silent majority hibernating somewhere out in the boondocks, he formally declared a state of national emergency, thereby automatically authorizing himself to issue executive orders without the advice and consent of Congress, or of Sen. Fulbright & Co., Inc. So it came about that he implemented a 90-day wage-price-rent freeze and a 10% surcharge on all imports. Meanwhile, overseas dollar-holders can go fly a kite and American tourists and taxpayers abroad can wait in line for a handout.

With this grand gesture, Tricky Dicky Nixon is supposed to have licked the whole problem.

Almost to a man, Tricky Dicky's lackeys applauded his ability to sign his name on executive orders. Their congratulations sounded like greetings to the coming of the Economic Messiah of the 20th Century. The Democrats, of course, smugly sniffed the wind and said that Nixon's action were too little and too late. Coming from these characters, whose political party is not only responsible for the fix we're in but also for the smelly deal with the Federal Reserve Bank, the braying of jackasses makes more sense.

On cue, the worthy gentlemen of the Babylonian Press got into the act. They whooped it up to beat the band, while we, the people, are getting ready to bed down with a nervous breakdown and the people of the West are scratching their naves while contemplating the silly antics of Americans. The only place where calm reigns supreme is in the lair of the money power. There, everything is just jim-dandy. For, as if it were the workings of a fine Swiss watch, their plot worked like a charm. While harvesting rich profits, they tightened their economic squeeze on us all.

In short, while Tricky Dicky Nixon is off chasing bogeymen out in the wild, blue yonder somewhere, the culprits are having a ball at our expense.

ONE WORLD IS TREASON

(Continued from Page 3, Column 3)
CITY," mentions a "tiny area of a little over one square mile" (677 acres), located in the city of London. He says: "The colossal political and financial organization centered in this area, known as 'The City,' operates as a super-government of the world; and no incident occurs in any part of the world without its participation in some form."

"THE CITY" then is the REAL British Empire. It is the ONE WORLD Superstate, already invisibly controlling the whole world. It is the Rothschild Dynasty. It is the Pharisee Camarilla behind the Masonic-British Israel World Revolution which is intended to give them VISIBLE control of the world, with the rest of the people becoming their slaves.

But before they can step out in the open as the REAL rulers of the world, they must first eliminate the United States of America, and their every effort is directed that way. The mental condition of the American people has been already adequately prepared to give up our U.S.A. for a paradise World in the Judaic-New Age Millennium, because through "Mind Control," they have come to believe that this is according to the Word of God.

What has been said here is very elementary when one considers the overall scope of power politics working in the world today; but in order not to confuse, the attempt has been made to show only the skeleton of the plot and some of the tactics used to bring in the Jew Kingdom of God on Earth, which would be world slavery under the rulership of "THE CITY."

But we must remember that even though the Jews have invisible control of our country on their way to world rulership, we do not fight them as people for they could never by themselves take over the U.S.A. It is the Jew's religion of millennialism that is destroying America — propagated by millions of sincere well-meaning but deceived Christians, who are victims of Jew "Mind Control." Neither by the political nor the military can we free these people from the influence of mind control based on distorted and misused Scripture, for it is a Spiritual battle and only the Sword of the Lord can free them, and bring the downfall of the invisible controllers. Yet, with the TRUE Gospel of Christ we can topple the controllers by offsetting the false doctrines of the Jew's religion of millennialism, and exposing the ONE WORLD Treason to Christ and the U.S.A.

"Am I therefore become your enemy, because I tell you the truth?" Gal. 4:16).
